

By scanning the QR code on the Clarke nameplate, you will be directed to a clarkefire.com webpage dedicated to that specific engine serial number. On this webpage you can verify the serial number, the engine model, rated power, rated speed and other details which **match** the information etched onto the nameplate.

The current nameplate is pictured below:

NAMEPLATE

QR CODE RESULTS

Job #: 85898-0000

Customer: CLARKE FIRE PROTECTION PRODUCTS INC

COMMON SIGNS OF COUNTERFEITS

Incorrect Nameplate Design

Clarke currently uses a black and white laser etched nameplate design.

Incorrect Nameplate Data

This nameplate shows UL and FM listed certifications on a non-listed engine model.

Incorrect Nameplate Data

Clarke only manufactures fire pump drivers. Clarke does not manufacture pumps.
